

Retain for reference

Always sort your garbage correctly, and dispose of using the proper bag or container at the designated time and place for your area.

Sorting Your Garbage

	Garbage type	Examples	Instructions / Warnings
To be put in collection area	Burnable (use designated bag)	Food waste, plastics, shoes, purses, music/video tapes, optical discs, leaves, wood chips, paper diapers, etc.	All food waste should be drained thoroughly of liquids.
	Non-burnable (use designated bag)	Aluminum foil, glass products, silverware, dishes, vases, planters, metal objects, small home electronics, umbrellas, non-food/drink cans and bottles	Sharp items such as broken glass, knives, or razor blades should be wrapped in newspaper or something similar before placing in the designated bag for collection. Please empty spraycans and make a hole in the can before placing in designated bag. Long objects such as umbrellas are allowed to stick out from the bag.
	Oversized	Items that will not fit in a bag (furniture, tables, chairs, futons, etc.)	Items such as appliances and computers cannot be taken. Contact a retailer or similar business to have such items disposed of.
	Recyclable	①PET bottles, ②cans, ③reusable bottles, ④amber bottles, ⑤clear bottles, ⑥other colored bottles, ⑦newspaper, ⑧flyers, ⑨magazines, ⑩cardboard, ⑪milk cartons, ⑫fabrics, ⑬batteries	See "Sorting Your Recyclables" below for detailed instructions.
Cannot put in collection area	Appliances	Televisions, washers/dryers, refrigerators, air conditioners	Contact the store where you purchased the item or a home appliance/electronics store, etc.
	Computer-related	Desktop computers, monitors, laptops	Contact the store where you purchased the item or a post office, etc.
	Vehicles	Cars, motorcycles, motorized bicycles, etc., and automobile parts	Contact the store where you purchased the item or an automobile-related shop, etc.
	Farming equipment	Agricultural machinery, motorized lawnmowers, etc., and parts	Contact the store where you purchased the item or a farmers' co-op, etc.
	Garbage that cannot be processed at the waste treatment facility	Hypodermic needles, mercury thermometers, agricultural/fishing waste, motor oil, kerosene, pesticides/poisons, fire extinguishers, green houses, pianos, propane tanks, etc.	Contact the store where you purchased the item or the city's Environmental Protection section (kankyo hozen gakari).

Sorting Your Recyclables

Item type		How to dispose / Things to be careful of	Item type		How to dispose / Things to be careful of		
Recyclable garbage	① PET bottles Plastic "PET" bottles for beverages, soy sauce, etc.	 <ul style="list-style-type: none"> ○Only recycle bottles with the "PET" symbol. ○Do not crush. Cap should be put out with burnable garbage. 	⑦Newspaper Regular newspaper and paper of the same kind		Tie together well using string and place in the designated area. <ul style="list-style-type: none"> ○Do not mix with different types of paper such as magazines ○Flyers, thin paper, flip calendars, etc. ○Booklets bound with staples, etc. ○Paper with a plastic coating (albums, etc.), cloth covers, waterproof covers, etc. should be put out with burnable garbage ○Remove masking tape, delivery labels, etc. ○Only cartons without aluminum coating may be recycled. ○Remove contents, clean, dry, and completely open and unfold cartons before tying together and putting out for recycling. ○Down, plastic, and leather should be put out in burable garbage. 		
	② Cans Cans for food and drink		<ul style="list-style-type: none"> ○Only cans for food or drink may be recycled. Other cans should be put in with non-burnable garbage. ○Put cans into the receptacle uncrushed. ○You may place aluminum, steel, or other cans in the same receptacle (no separation necessary). ○Caps should be put out with burnable garbage. 			⑧Flyers Flyers that come with newspapers, as well as any such thin paper	⑨Magazines/Periodicals City info booklet, textbooks, dictionaries, catalogs, weekly magazines, books, etc
	③ Reusable bottles Glass bottles for shochu, beer, etc.		Broken bottles should be put out with non-burnable garbage.			⑩Cardboard Cardboard, such as moving boxes	⑪Milk cartons Paper milk cartons
	④ Amber bottles Amber-colored glass bottles for food and drink					<ul style="list-style-type: none"> ○1.8L and 900mL shochu bottles; S, M, L, and XL-size beer bottles and Mizkan bottles (900mL, 500mL) ○"Mizkan bottles" refers to bottles with a wave pattern at the top of the bottles 	⑫Fabrics Clothes, towels, etc
	⑤ Clear bottles Clear glass bottles for food and drink					<ul style="list-style-type: none"> ○Bottles which are amber-colored to prevent light from entering 	⑬Batteries Dry cell batteries
	⑥ Other colored bottles Other colored glass bottles for food and drink					<ul style="list-style-type: none"> ○Colorless clear bottles ○Bottles that have color (separate from amber and clear) ○Some bottle colors may be difficult to tell apart without sunlight passing through. 	

Please follow these practices when putting out your garbage

Put out garbage by 8:30 a.m.
※Time of collection may differ depending on weather or other circumstances.

Sort garbage correctly before putting it out.
※Mixed types of garbage (burnable, non-burnable, recyclable) will not be collected.

Except for oversized garbage or recyclables, garbage must be put out in city-designated bags.
※Other bags will not be collected.

Recyclables must be put out on the designated day in the designated place and receptacle.
※They will not be collected on other days even if you put them out.

Do not place your garbage in any location besides your own area's.
※This causes trouble for local residents
